

Medius

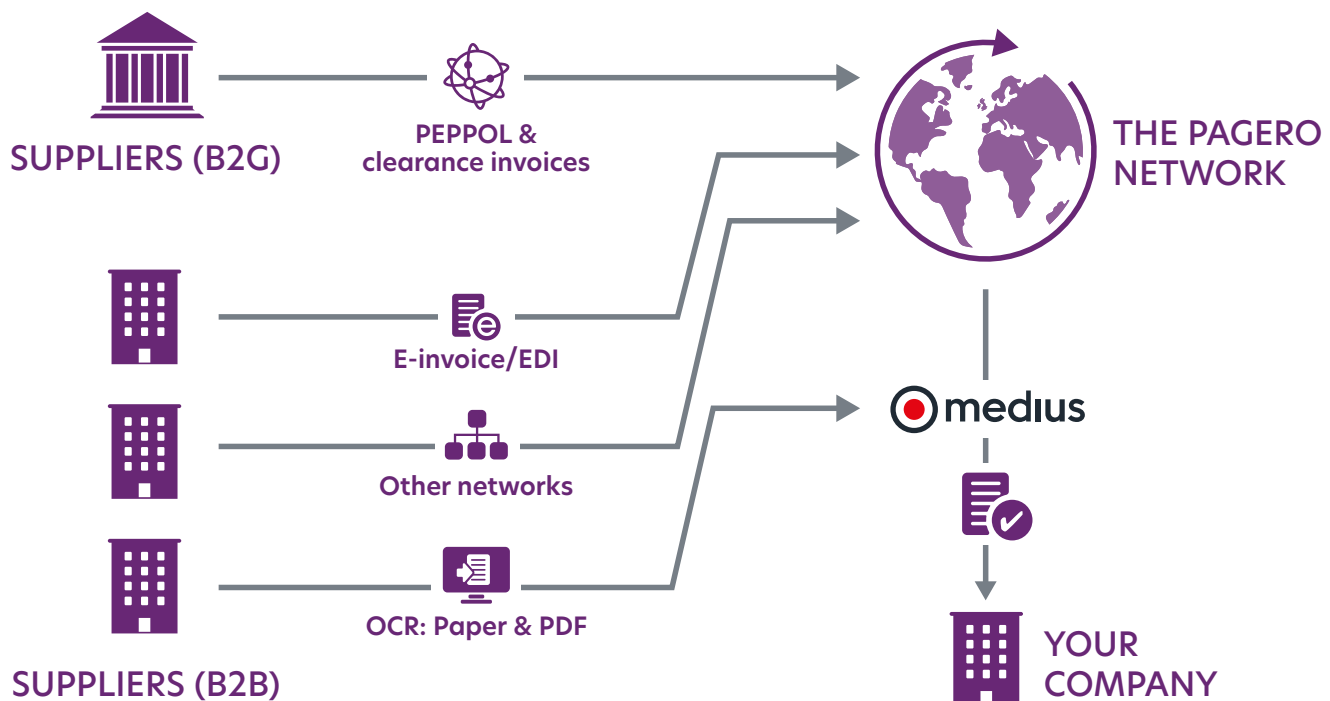

AP Automation

E-invoicing capabilities

Medius AP Automation is a cloud-based solution that streamlines and automates the entire accounts payable process - from invoice reception to payment - to save costs, get the books closed on time, and ensure visibility of spend.

Combining our award-winning spend management suite with the e-document exchange network of our global partner Pagero, we provide access to cutting-edge technology in e-invoicing, delivering smart solutions for real-life challenges.

Medius and Pagero are seamlessly integrated for a smooth user experience

What you'll get

Complete visibility of invoices and spend

- Full insight into liabilities as soon as invoices arrive
- Actionable dashboards, including cash flow forecasting, DPO analysis and discount optimization
- 100% accurate invoice data, all in one repository, accessible and reportable
- Up to 80% reduction on invoice costs

Embedded automation excellence

- Intelligent invoice data capture capabilities digitizing all invoices regardless of format
- Automatic matching of invoice data against purchase orders, goods receipts or contracts
- Flexible tolerance configurations to increase automation levels

Easy to get started, easy to use

- Immediate user adoption with an intuitive interface and mobile approvals on-the-go
- Configurable approval routing and coding templates to remove manual steps
- Pre-built cloud connectors to ERP systems
- Built-in best practice workflows for high automation from the start

Value added services via **PAGERO**

Compliance:

Ensure all invoices are country specific compliant

Interoperability:

Connect to a network of over 100 networks and platforms

E-archive:

Store all documents according to local legal requirements

Digital Signature:

Ensure document integrity and authenticity

Prepare for tomorrow by achieving 100% digital and future-proof AP process and adapting to the ever-increasing demands of global e-invoicing.
