

Hur Medius applicerar AI i ekonomiprocessen

Skillnaden mellan konfigurerad automation och intelligent automation

Katarina Andersson | November 2024

**AP has never been
more complex or
more critical.**

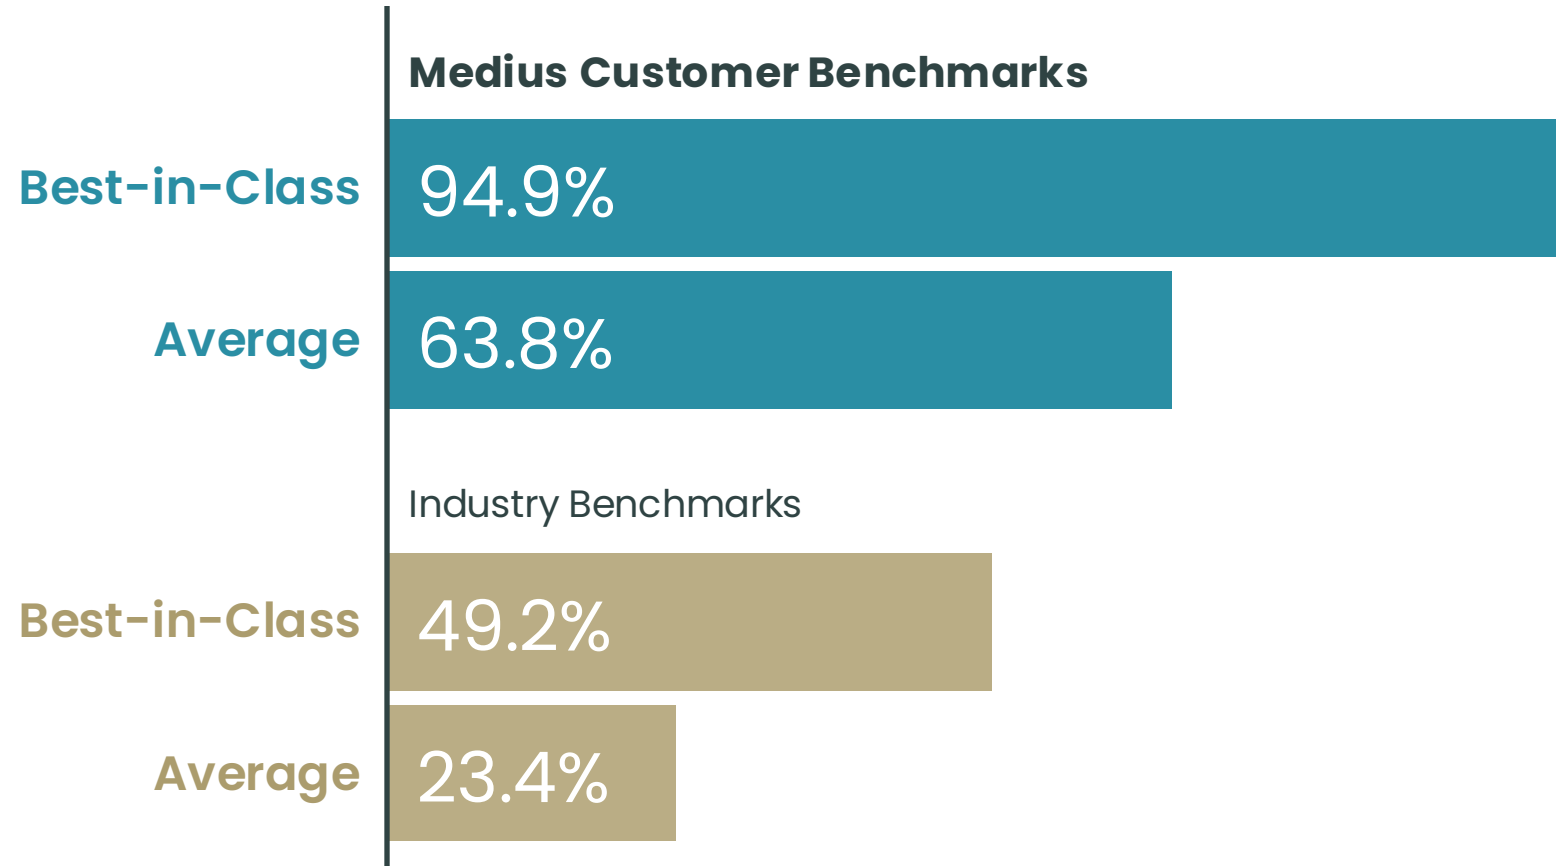

Exceptions, long approvals, and fraud constrain success.

Source: Ardent Partners, 2024

Why are
94% of
Medius
customers
highly
satisfied?

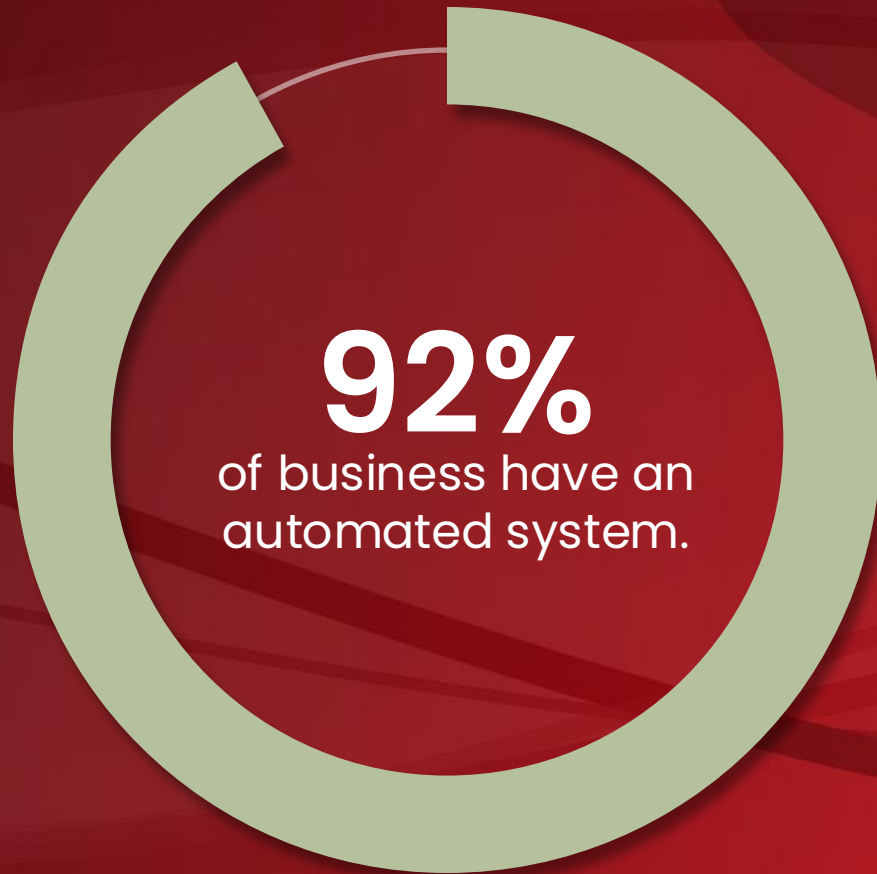

“Straight-through” processing is standard.

The background is a solid red color with several overlapping, semi-transparent dark red ovals of varying sizes and orientations, creating a layered, abstract effect.

Automation alone isn't
solving the problem.

Automation alone isn't solving the problem.

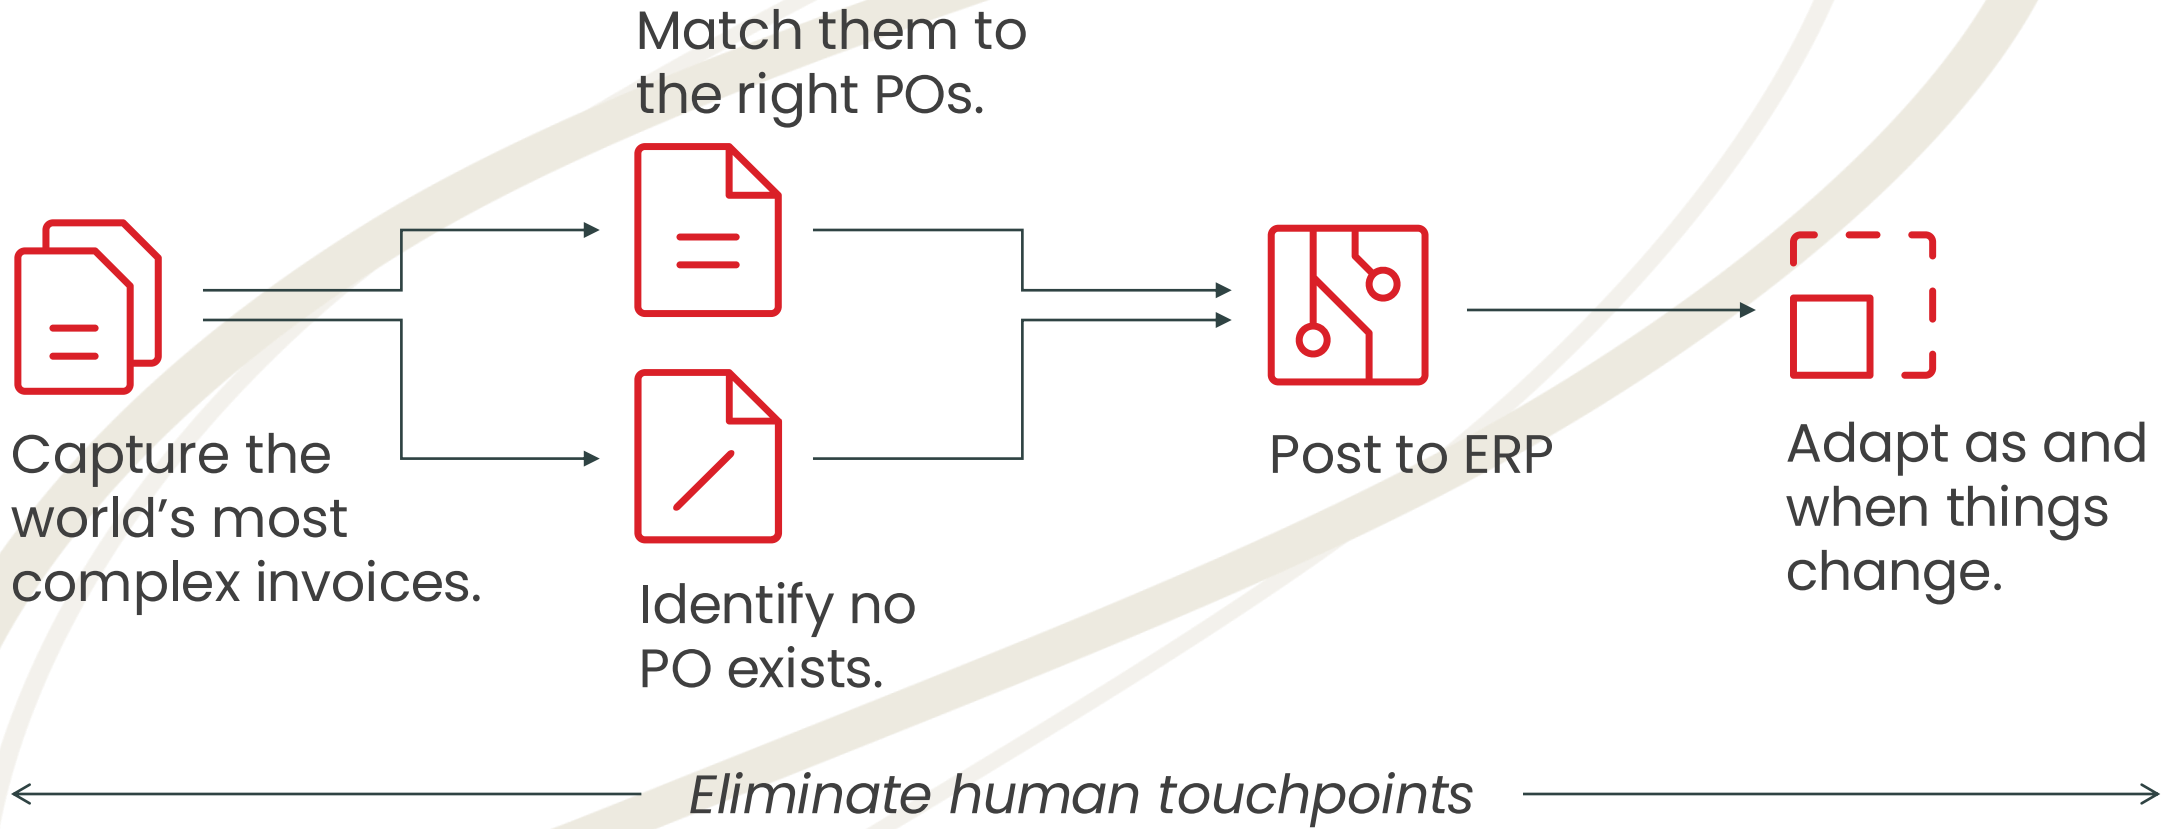

Yet, half of AP teams report **no change** in straight-through processing:

And nearly half of AP teams see **no change** in processing time:

Medius risk-free autonomous AP is the answer.

Eight ways Medius applies AI to your process

1

Best In Class Data
Extraction and
Validation and
Reporting

2

Touchless
Capture

3

SmartFlow

4

Fraud and Risk
Detection

5

Your Intelligent
Workmate

6

Conversational
Optimization

7

99% Automated*
e-Invoicing

8

Touchless Payments

Let's look into the details of a few of these

*Patent Pending

Capture every invoice in any format.

Let AI take care of coding.

Auto-fills coding, tax and approver values for non-PO invoices.

Hits 95% precision after just two invoices.

Delivers highest rate of straight-through processing.

The screenshot displays a software interface for a 'Route - Non-PO invoice 56789'. The interface includes a header with a refresh icon, a navigation bar with tabs for 'Coding', 'Invoice image', 'Invoice details', 'Comments', 'File Attachments', 'History', and 'Links 1'. Below the navigation bar are several action buttons: '+ Add', 'Clone', 'Remove', 'Apply latest coding', and 'Retrieve approver'. A green notification box states: 'We have applied a coding suggestion that we believe is the one you want. If it is not correct just undo and apply your own.' Below this, a summary bar shows: 'Coded net: 260.65 Coded tax: 0.00 Coded total: 260.65 Coding balance (total): 0.00'. The main data table has columns for '#', 'Code string', 'Net', and 'Approver'. The first row shows a code string of '6450 010 CC' with a net value of '260.65' and an approver of 'Peter Hamilton (peter)'. Below the code string, there are input fields for 'Proj' and 'Desc'.

#	Code string	Net	Approver
1	6450 010 CC	260.65	Peter Hamilton (peter)

Use AI assistants to free up time.

AP teams spend too much time managing and answering questions.

87%
must reply to
vendor emails.

Average
28 emails
per day.

Take up to
6 hours
per week.

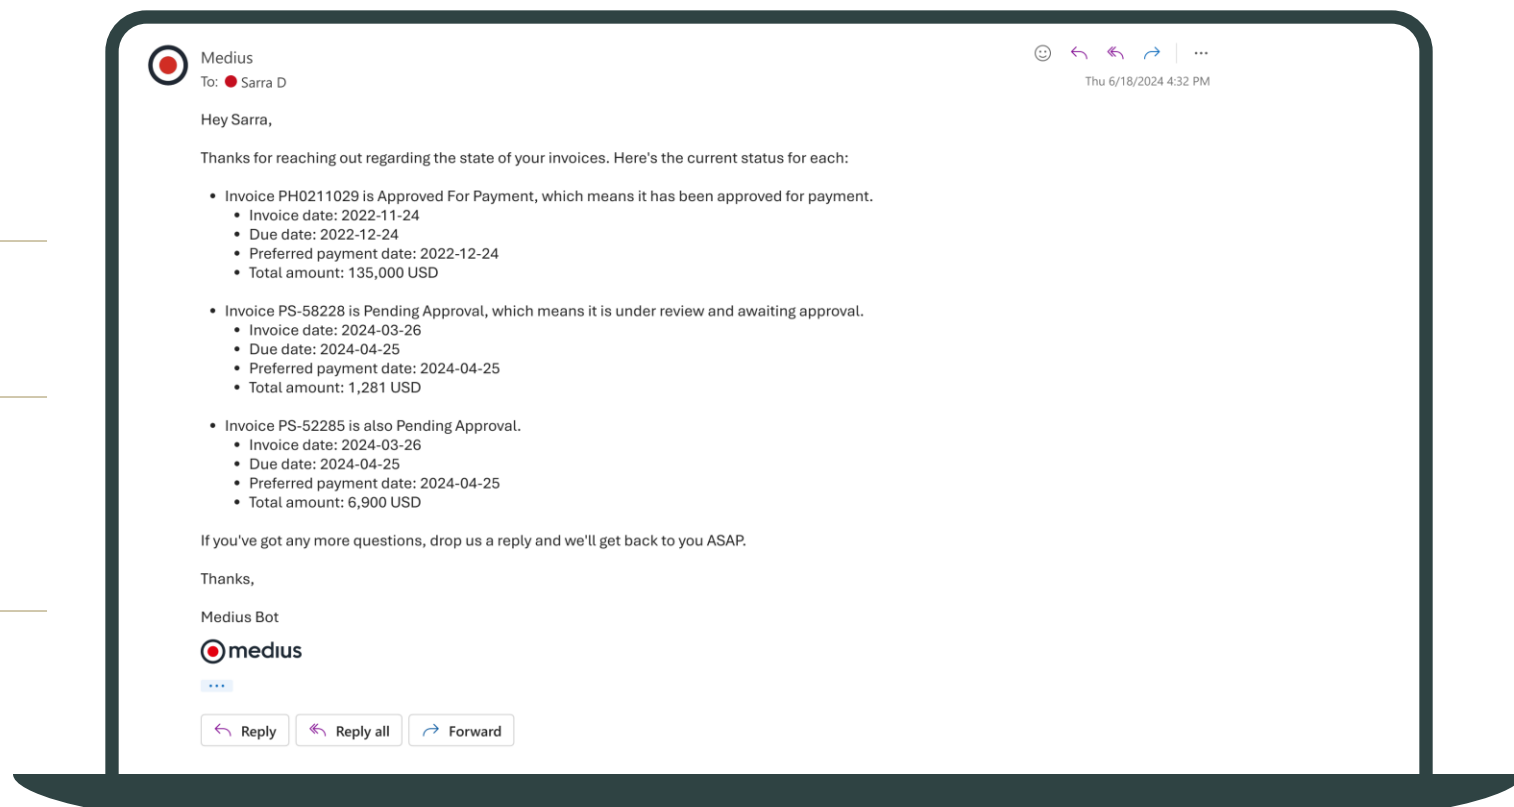

Provide instant answers to suppliers' questions.

Delivers 24/7 supplier support.

Answers questions in real-time.

Copies relevant employees on exchanges.

Automatically escalates challenging request.

Deliver in-the-moment guidance for approvers.

Guide approvers through the process.

Answer questions and provide tips.

Free AP teams to focus on more strategic work.

The screenshot displays a software interface for invoice approval. The main window shows a Japanese invoice document with the following details:

- Supplier: NIPPON EXPRESS
- Invoice Number: T8013301009305
- Invoice Date: 6/30/2024
- Net amount: 30,600.00 JPY
- Coded tax: 2,640.00 JPY
- Total amount: 33,240.00 JPY

The interface includes a navigation bar with "Back", "Document 1 of 4", and "E-mail" options. A summary panel on the right provides a quick overview of the invoice details and a "Save Comment" button. Below the summary, there is a "Comments below" section with a comment from Amy Schmitz (amy) stating "Please review".

On the right side, a "Medius Copilot" window is open, displaying a list of "Last 5 (of 6) invoices from this supplier" and a translated version of the invoice content. The translated content includes:

- Amount: ¥33,240
- Supplier: Nippon Express
- Address: Tokyo Business Division, Tokyo International Freight Forwarding Branch
- Telephone: 03-5665-1911
- Fax: 03-5665-1968
- Invoice Number: T8013301009305

The AI assistant also provides a note: "The invoice appears to be a Japanese invoice from Nippon Express." and offers buttons for "Tell me more about the supplier", "Should I approve this invoice?", "How do I reject this invoice?", and "Why have I received this invoice?".

Why are 94% of Medius customers highly satisfied?

They process invoices remarkably faster.

Medius Customer Benchmarks	Best-in-Class: 1 day	Average: 6.3 days
Industry Benchmarks	Best-in-Class: 3.1 days	Average: 17.4 days

Thank you.
